

Knowledge :- Derived outcome from meaningful data

Automated Reasoning:- learn itself

McLuah M. Pitts (1943)

n/w that can $\hookrightarrow$ give concept of neural learn

$\rightarrow$ Minsky (1951) $\rightarrow$ Neural n/w that can learn

$\rightarrow$ GPS model

$\rightarrow$ Samuel checkers (1951)

Breakthrough Achievements :-

(i) Deep Blue :- ^{Chess champion}
(1997) Garry Kasparov

(ii) Math Conjecture (Unsolved)

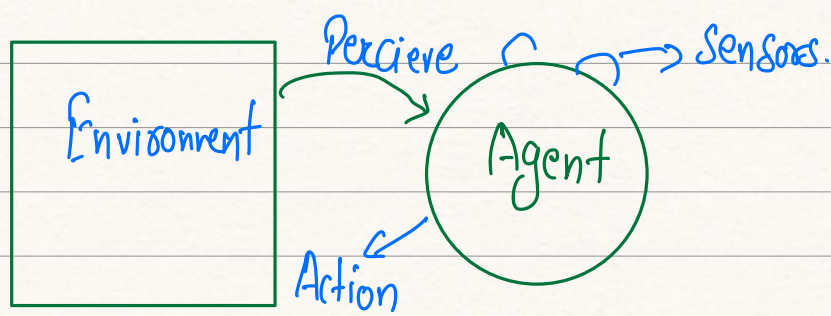

↳ Robbins Conjecture.

* Agent :- Is anything that can be viewed as perceiving its environments

eg:- Magnetometer, Gyroscope etc.

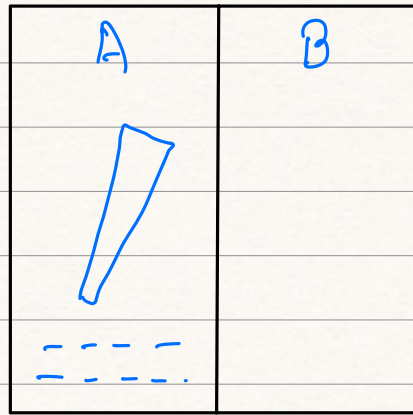

* Actuators :- That performs actions

* Robotics Agent :- Cameras, Sensors etc.

Subject: / /

Vacuum cleaner world

Percept [location , State]

↳

A, clean
B, clean
A, dirty
B, dirty

Action

Left
Right
Suck
No operations.

→ Make a model like this, automated attendance, perception, action on it (problem)
